In August of 2007 I lost my brother to a rare genetic disorder, fatty acid oxidation disorder. This type of disorder is usually found in young children. My brother, Chad Falco, was 26 years old when he passed away, not knowing that he had been ill for a long time. This devastating loss has been an exceptionally hard reality for my entire family. One way for my family and I to help with our healing process is to honor him in a game that he loved, golf. In honor of Chad, my family and I are pleased to announce the 9th Annual Shooter's Charity Golf Outing to be held at Marysville Golf Course on September 16, 2017. All of the proceeds will benefit genetic research at Nationwide Children's Hospital.

Over the past 9 years we were able to raise **\$98,000** for Nationwide Children's Hospital. We are again asking for contributions to help our benefit become even more profitable than last year. We have in the past five years used this money to sponsor families so they could have the funds to use for additional testing to find out more about this disorder that Chad had. If you would like to sponsor a hole, donate a gift or products that could be used as prizes for participants, we would greatly appreciate your help. All contributions are welcome, you can even contribute directly to Nationwide Children's Hospital in memory of Chad Falco.

We appreciate your time and look forward to hearing from you. Please know, big or small, every contribution helps Nationwide Children's Hospital genetic research. Please feel free to contact me with any questions or to make arrangements.
